Skills for the Development of Effective Procurement Strategies

PIK797-1025 USA-OR-1

**If you can't train them,
you can't blame them!**

Short Description:

The training program on Procurement Essentials provides an in-depth exploration of the complexities involved in purchasing processes. It covers a wide range of topics, including the development of effective procurement strategies and the critical evaluation of suppliers. By equipping participants with this knowledge, the program fosters a comprehensive understanding of the procurement lifecycle, enabling individuals to navigate the challenges and opportunities inherent in the purchasing realm. Furthermore, this program empowers participants to enhance their professional roles within their organisations. By focusing on skill development and strategic insights, attendees are prepared to make significant contributions to their organizations' success. The knowledge gained from this training not only improves individual capabilities but also aligns with broader organisational goals, ultimately driving efficiency and effectiveness in procurement practices.

Course Overview:

At the end of this program, participants will be able to:

- Understand the role of purchasing within their organisation.
- Fulfil responsibilities associated with purchasing effectively.
- Develop effective purchasing strategies and agreements.
- Select suppliers efficiently.
- Evaluate bids objectively.
- Negotiate contracts adeptly.
- Manage supplier performance and apply cost analysis techniques in purchasing decisions.

TARGET AUDIENCE

- Professionals involved in purchasing and procurement roles within companies.
- Managers responsible for procurement strategies.
- Supervisors overseeing supplier management.
